

SL6530C type ozone electrode

Specification parameters:

Range: 0 - 2/5/20 mg/L

Temperature range: 0 - 50 °C

Measurement method:

Three-electrode method

Dual salt bridge reference system,
ring-shaped liquid interface

Temperature sensor: Standard version
not included, optional

Shell/size: Glass, 120mm * $\Phi 12.7$ mm

Wires: Length of 5m or as agreed,
terminal blocks

Connection thread: PG13.5
